

Positions: Business Intelligence - Senior

SE2S is seeking a **Business Intelligence - Senior** to support our team in the Coronado, CA area. We are looking for a qualified person to support Naval Special Warfare in support of their Enterprise Knowledge Management responsible for leading all ongoing development and maintenance of business intelligence architecture that enables fact-based decision making and ad-hoc analysis and insight generation. Converts business requirements and high-level data collection needs into well-specified analyses, reporting and visualizations. Gathers BI requirements, design solutions, and works with developers on delivery. Engages as the SME on our selected platforms- including SQL Server, Microsoft Dynamics CRM, Power BI, along with SSRS, to successfully deploy business intelligence solutions to satisfy information requirements to include:

- Provide Analysis and Reporting Development and Support.
- Develop new enterprise business intelligence (BI) service offerings, content creation, and value propositions to support and improve Government business processes.
- Collaborate with end users to identify needs and opportunities for improved data management and delivery.
- Provide ongoing development and maintenance of an operational data store and enterprise data warehouse using BI best practices, relational structures, dimensional data modeling, structured query language skills, data warehouse and reporting techniques.
- Improve and streamline processes regarding data flow and data quality to improve data accuracy, viability and value.
- Provide ongoing development and maintenance of a BI architecture that enables fact-based decision making and ad-hoc analysis and insight generation.
- Provide interactive real-time dashboards and key performance indicators using Microsoft Power BI, SQL Server Reporting Services, Tableau, Sisense, SAP Crystal Reports, IBM Cognos, Qlik, or newly identified BI tools.
- Provide end-user support and encourage user adoption. Act as Tier 1 support for end users of BI tools. Train end-users on basic functionality. Direct users to training material and available resources

Qualifications:

- MA/MS Degree in Business Intelligence, Computer Science, or Data Analytics OR 10+ years of relevant experience.

Clearance: Secret or above

Certifications:

- Certified Business Intelligence Professional (CBIPR) desired.
- IAT Level II required (Security Plus).

SE2S offers a highly competitive package of pay and benefits including Paid Time Off and Holidays, 401(K) match and flexible medical benefit plans for the well-being of you and your family. Applicants selected will be subject to a government security investigation and must meet eligibility requirements for access to classified information.
